Transformer Pad TF300T Tablet

▶ 10.1” TABLET FEATURING A TEGRA 3 PROCESSOR AND AN OPTIONAL KEYBOARD DOCKING STATION

Users can enjoy increased mobility and productivity with the Transformer Pad TF300T, the successor to the TF101 tablet. Equipped with an NVIDIA® Tegra® 3 processor and the latest Android™ 4.0 Ice Cream Sandwich operating system, the tablet delivers improved performance in a sleeker and lighter form factor. Productivity is not sacrificed for portability with the optional docking station with QWERTY keyboard that extends battery life up to 15 hours* and the tablet’s multiple preloaded productivity applications.

Transforming How You Work

ASUS | Transformer Pad TF300T Tablet

Transformer Pad TF300T Tablet

Measuring only 0.39” thin and weighing a mere 1.4 lbs, the Transformer Pad TF300T is thinner and lighter, allowing mobile users to travel light.

The pre-installed Polaris® Office® software lets users view and edit documents, spreadsheets, and presentation files. Users can take notes via keyboard or touch, and add photos and video captures or audio notes with SuperNote. App Locker and App Backup protect important files.

The quad-core Tegra 3 processor delivers almost twice the Web browsing performance and up to 61 percent lower power consumption than the previous generation Tegra 2 dual-core processor.

Users can share presentations by outputting content to HDTVs and projectors via the tablet’s micro HDMI port.

The docking option extends the tablet’s battery life to up to 15 hours* and incorporates a QWERTY keyboard, a multi-touch touchpad, a USB port and SD card reader.

The latest Android 4.0 Ice Cream Sandwich operating system delivers smoother user interface transitions, improved responsiveness, supports Adobe® Flash®, and grants access to the growing Android market.

P/N: TF300T-B1, NVIDIA Tegra 3 processor, 1GB DDR3, 32GB Flash, 802.11b/g/n, BT 3.0, 22 W/h Li-polymer battery, up to 10 hours battery life; 15 hours with docking,* Android™ 4.0 Ice Cream Sandwich, 1-YR North America warranty

Transformer Pad TF300T Docking Station

TRANSFORMER PAD TF300T DOCKING STATION WITH QWERTY KEYBOARD

Easily move between tablet and PC mode with the docking station* (sold separately) designed especially for the Transformer Pad TF300T. The station not only extends the tablet's battery life up to 15 hours** but also features added functionalities which include a near full-sized QWERTY keyboard, a multi-touch touchpad, a USB 2.0 port, and a 4-in-1 SD card reader.

Expand the Possibilities

Transformer Pad TF300T Docking Station

Model Name: TF300T-DOCK-BL,
Reference #: 90-OK0GDK40010W,
UPC Code: 886227148851,
1-YR North America warranty

The docking station turns the tablet into a portable notebook with a keyboard for greater typing speed and accuracy when composing lengthy documents.

The roomy multi-touch touchpad is not only comfortable to use but supports intuitive gesture inputs.

The tablet's physical keyboard not only enables comfortable and easy long term typing but also frees up screen space when compared to onscreen keyboards.

A 4-in-1 SD card reader lets users transfer files between their devices and the tablet quickly, easily and safely.

The docking station extends the Transformer Pad TF300T's life to up to 15 hours** (10 hours without dock), so users can stay productive longer.

Users can connect mice, keyboards, USB memory sticks and USB HDDs to the tablet with the docking station's USB 2.0 port.
